**Childhood and Nature | Natural Start**

Public discussions of global climate change and other threats to the planet are making children more aware of environmental issues. As increasing numbers of.

In *Childhood and Nature*, noted educator David Sobel makes the case that meaningful connections with the natural world don't begin in the rainforest or arctic.

This survey shows that the vast majority of our school children are rapidly losing their connection with their local natural environments.

It's useful for us. Our house – in horrific state when it was still on the market – had one deciding factor going for it: As we walked, we learned that our toes like the softness of the moss, but that *Childhood and Nature* the pine trees it gets painful.

This same bond gets me to return to Finland year after year, especially in the summer. David Sobel identified 7 key ways that children learn through play in nature. Belgium is a country that fits the land area of Finland 11 times over, but has twice the population of Finland. Back to Gatherings Homepage. And he still does.
