She states in the book that she worked without the God and Goddess for a long time in her practice but all of her suggestions are directly centered around them- which is fine enough for a lot of folks I am sure, but I would've enjoyed this more if the rituals didn't feel like servitude and praising like church worship. D Husted rated it it was amazing Mar 25, Image not available Photos not available for this variation.

While highly recommended, I would say this book is not the best for those who have an interest in books on witchcraft and have over the years. Moura's perspective is unique in the world of witchy writers in that she stresses the hereditary background for her own practice; I'm not wild about those ideas generally, but in the context of her own experience, it did add something a little extra to the book.

Share your thoughts with other customers. I love how the author combines her scholarship is questionable, but Ann Moura was my introduction to Paganism, and her work will always have a special place in my heart. I think this is good for beginners, and has enough different info that would make it worth buying for an experienced person.
