The reason is that their customers are driving this renewed interest, not the KM community. The ability to manage rich media has become essential for departments throughout the enterprise. It's an area where we have seen a leap in interest inwith users seeming to become more aware of the limitations of existing systems and methods, and small startups attempting to come to market.

order to optimize the benefit of the sourcing strategy and ensure delivery of the portfolio, a logical operational process flow must be developed and implemented consistently across all study teams within the sponsor organization. The critical trial criteria might include clinical expertise, operational expertise, access to patients, investigator connectivity, site interface, recognized areas of therapeutic expertise, geographical presence, service capacity,

timeliness, and strategic advantage.
